Async brainstorming

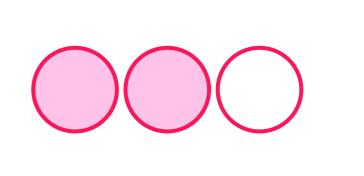

A brainstorm method tailored for async collaboration

INTRODUCTION

Design an inclusive and effective brainstorm with this template tailored for async collaboration. These activities are great when calendars are packed, participants can't meet live because of time zone conflicts, or when you just want to give collaborators more time to think about their ideas.

AGENDA

- 1 Define your problem statement
- 2 Brainstorm
- **Group ideas**
- 4 Prioritize

PREPARATION FOR ASYNC WORK

Before sharing this mural with collaborators, review the facilitation recommendations for async projects. Then, define the problem statement and fill out section 1.

Provide collaborators with a timeline for each phase of the brainstorm — then explain the activity checkpoints below. Consider recording a quick explainer video, if collaborators are unfamiliar with async collaboration.

Give a brief overview or record a loom of the project

ACTIVITY CHECKPOINTS

Starting point - I have read the problem statement

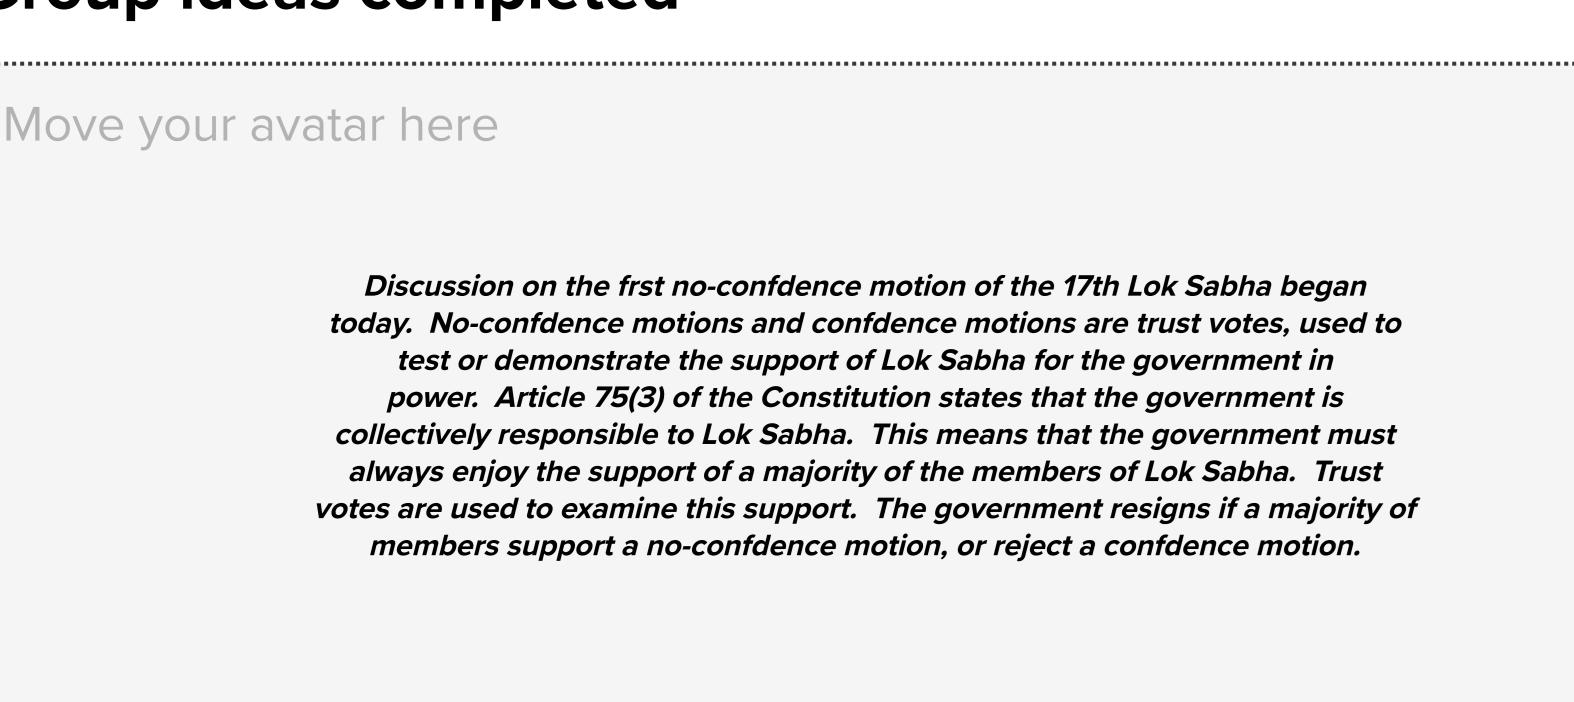

Discussion on the frst no-confdence motion of the 17th Lok Sabha began today. No-confdence motions and confdence motions are trust votes, used to test or demonstrate the support of Lok Sabha for the government in power. Article 75(3) of the Constitution states that the government is collectively responsible to Lok Sabha. This means that the government must always enjoy the support of a majority of the members of Lok Sabha. Trust votes are used to examine this support. The government resigns if a majority of members support a no-confdence motion, or reject a confdence motio

Brainstorm completed - I'm ready for grouping ideas

Move your avatar here

Since the introduction of the no-confdence motion on July 26, 12 Bills have been introduced and 18 Bills have been passed by Lok Sabha. In the past, on four occasions, the discussion on no-confdence motions began seven days after their introduction. On these occasions, Bills and other important issues were debated before the discussion on the no-confdence motion began.

The Gujarat and Uttarakhand anti-cheating Acts have relatively stringent provisions for cheating. The Uttarakhand Act has a fxed 3-year prison sentence for examinees caught cheating or using unfair means (for the frst offence). Since the Act does not distinguish between the different types of unfair means used, an examinee could serve a sentence disproportionate to the offence committed. In most other states, the maximum imprisonment term for such offences is three years. Andhra Pradesh has a minimum imprisonment term of three years.

Define your problem statement

What problem are you trying to solve? Frame your problem as a "How Might We" statement. This will be the focus of your brainstorm.

The state which has witnessed very intense, aven violent, elections with confrontations between CPM, Congress earlier and now between Trinamool and BJP, is already in the throes of full-fedged poll campaigns. Prime Minister Narendra Modi and BJP chief Amit Shah have made several visits to the sate and have launched sharp attack Mamata Banerjee and her government.

Give a brief overview or record a loom of the project

Type your paragraph...

2 Brainstorm

Write down any ideas that come to mind that address your problem statement. Remember, the key rules of brainstorming are:

Advice

- ☆ Defer judgment
- Go for volume
- Stay on topic

Build on the ideas of others

Encourage wild ideas

Be visual

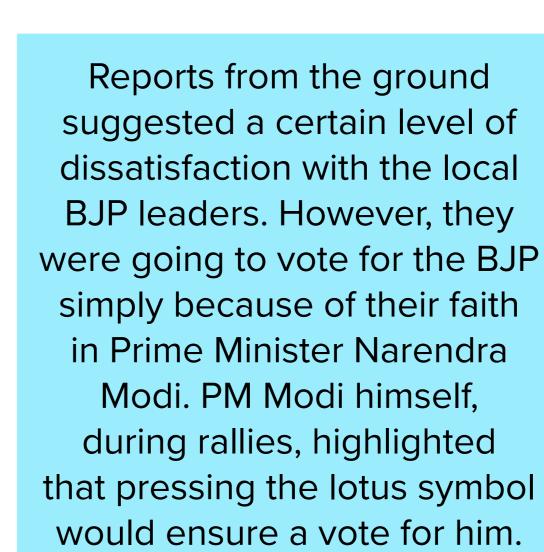

PRO TIP: Select a sticky note and click the pencil icon in the menu to sketch.

The Modi-led Bharatiya Janata "Therefore, NDA 2.0 must Party (BJP) appears set to win a focus on the implementation comfortable majority on its of this plan in order to unlock own in these elections (the fnal opportunities for inclusive tally will be available on economic growth. Over the Friday). After the successive next fve years NDA 2.0 must victories of the Congress in introduce policies that are 1980 and 1984, this will be the bold, innovative and frst time any party has won transformational to translate absolute majorities on its own the economic potential into in two successive Lok Sabha prosperity for all," she said in a blog post.

2.0 must nentation to unlock nclusive Over the 2.0 must that are and translate ntial into ne said in

The 2019 Lok Sabha verdict delivered on Thursday has been historic in more ways than one. Narendra Modi is set to become the frst non-Congress person to be India's Prime Minister for two consecutive fveyear terms.

4 Prioritize

The facilitator should copy and paste the groups from step 3 into this area and setup the vote details.

Let's vote! Add a vote on sticky notes you think are a high priority. You can also add your vote to an entire group.

Vote area

Vajpayee became Prime Minister again in 1999, and faced another confidence motion. This time, it was put to vote. The motion was defeated by a margin of one vote. This has been the closest result on a trust vote in the history of Lok Sabha. The next closest result was when a motion of no-confidence against P V Narasimha Rao's government was defeated by 14 votes in 1993. In most cases, results have been in favour of the government by a large margin.

11 confdence motions discussed in Lok Sabha, seven were accepted. On three instances.

governments had to resign as they could not prove that they had the support of the majority. On one instance in 1996, the motion was not put to vote. Following an eleven-

discussion on this confdence motion, Prime Minister Atal Bihari Vajpayee announc

Following the discussion, the motion is put to vote. 26 out of 27 no-confidence motions (excluding the one being discussed today) have been voted upon and rejected. This means that no government has ever had to resign following a vote of no-confidence. On one occasion, in 1979, the discussion on a no-confidence motion against the Morarji Desai government remained inconclusive. He resigned before the motion was put to vote. 50% of all no-confidence motions (14 out of 28) were discussed between 1965 and 1975. Of these, 12 were against governments headed by indira Gandhi
